Shall the Government Feed the Rebels?

This is a question of momentous interest to the people of the North and justifies us in a brief investigation. It has been the policy of the government to issue rations to the people of the South, as fast as places were conquered from them. This practice commenced at New Orleans, where Butler issued 30,000 rations daily, until now in Virginia the government is giving out 200,000 rations daily. If the fact was correctly ascertained, it is more than probable that there are issued each day to rebels more rations than our army consumed at its highest point of numbers. Now we are satisfied that this is all wrong, and without any disposition to find fault, we say it is wrong for these reasons:—It is taxing the North unnecessarily to pay their unnecessary bills. It should be enough to tax the North to keep good the National credit without this superadded burden. It is not an act of humanity, and as this great expense can only be justified on the ground of humanity, it is wrong to continue it, for humanity assists those who, after using all measures for self-support, fail of a support; humanity lifts up the weak, sustains the sick and decrepit; but humanity does not give to the lazy, to the arrogant or slothful. We state then a fact well known to all of our army that the government has given rations in some places for more than two years, and it has neither produced loyalty or industry; but the reverse has been true. The people would go with their sacks, baskets and pails after their rations, and curse the government at every step, insult our soldiers and curse the North, and they will continue to fold their hands in idleness, and denounce the North as long as rations can be had for the asking. A friend of mine just from Virginia says he knows a man, the owner of seven hundred acres of land, who will not work it himself, nor will he permit others to work, yet he regularly sends for his rations. We have read the story of the little daughter of Roger A. Pryor, going with her basket on her arm to the Government Commissary's, for supplies, and through the remainder of the day luxuriating in the family homestead; yet they are fed under the guise of humanity. We know a frail woman and her young daughter, the wife and daughter of a Massachusetts soldier, who was killed in the Pope campaign. We know such a couple toiling from early morning to evening in a factory, for enough to sustain life; their rations they earn, while thousands of indolent men, rebels still, all over the South get theirs of the government gratuitously; and you and I, dear readers, sweat and toil to pay in taxes the cost of fostering idleness, arrogance and the keeping of these rebels still, by thus teaching the people of the South that we yet fear their displeasure and give them rations as a bribe to their good behavior.

Shall we not learn from the past? We early in the war refused to use the bait or on rebels, while we shot our own men for desertion, many of whom deserted under the influence of liquor or from home sickness. When we had rebel prisoners in our hands, we fed them, clothed them and treated them with kindness and consideration. When our men fell into their hands, they were mutilated, shot for the sport of it, starved, exposed to the inclemency of all seasons, and dying, were refused Christian burial. When we conquered a city, the security of the city was made sure, order and law were established, when they took from us a place the flames of Chamberburg were lit up, and the flames fired our cities, burnt our steamboats, and with their torpedo system dealt havoc every where.

Shall we still be learners? Let us then if we must be silent; try to awaken to one fixed and immutable law. No people will be loyal or honest until they begin to labor for what they possess. The people of the South will not be any more soldiers, continuing a profitable banditti, as long as they furnish their own

self-respect, by daily leaving on the government they have abused for their daily bread. In proof of this witness the reports from Richmond, Georgia, Alabama, Tennessee and every where, at the cruel torturing and abuse of the freed men. And this will continue; but let the government demand that the South is favored by climate and variety of productions, that men shall work or starve, and self-respect will be restored, prosperity will return, and convictions of loyalty will spring up until the great waste hitherto caused by slavery shall bud and blossom like the rose. Therefore we feel impressed to call upon tax-payers, and say, men and brethren shall you toil to support your enemies in idleness, or shall we all toil and strive to sustain our blessed government and through our taxes pay the National debt.

FROM VIRGINIA.

A Sensible Order From Gen. Terry.—Negroes to be Treated Like White Folks.—The Planter's Meeting to Fix Wages Forbidden.

New York, June 27.

The Herald's Petersburg correspondent says Gen. Terry, commanding at Richmond, has issued an order announcing that slavery having ceased to exist in Virginia, all the State and municipal laws pertaining to the personal liberty of colored persons have become obsolete, and that hereafter the colored people will enjoy the personal liberty of the whites, and subject to only the same laws and punishments. Vagrancy, however, will not be permitted on the part of the negroes any more than white citizens.

The testimony of colored persons, he also states, will be received in all cases before the military courts in his department.

Gen. Harshbarger commanding at Petersburg has forbidden by an official order the holding of any more meetings by the planters to establish a fixed price for the labor of the negroes, or to make decisions prejudicial to their interests, and no difference in rate of compensation for the same labor by whites and blacks is to be allowed.

New York, June 27.

Lynchburg, Va., papers contain the proceedings of a meeting of the farmers of Nelson county, Va., and vicinity. Resolutions were adopted to pay number one field hands five dollars per month, and number one ploughboys two dollars and fifty cents per month, finding, clothing and full rations as heretofore. Loss of time from sickness or idleness to be deducted, and the hands to be entirely subject to the orders of the employers.

FROM WASHINGTON.

New York, June 27.

The Times special says Ex-Senator Foots and Q. J. Paulkner were the only persons of note who applied for pardon yesterday. Ex-Senator Foots's application is dated Montreal.

Among the troops that left here to day for their homes were the 124th N. Y., 24 officers and 556 men.

The Assistant Secretary of the War Department will surrender his office to his successor on Thursday next, and immediately start for the West by the way of New York, to assume the duties of editor of the Chicago Republican.

The Herald's Washington special says among other valuable property seized upon by the Collector of the Treasury Department in Virginia, is the military railroad leading from Danville to Greensboro, forty miles in length, built by the rebel army. The road will be run under the control of the Treasury, until regularly confiscated by the court, and it is expected to pay a handsome percentage above expenses.

The light cavalry, who have rendered signal service in eastern division throughout the war, and lately commanded by Col. W. A. Adams, is en route for New York, to be paid and discharged from the service, and will arrive there some time to-morrow.

THE ELEVENTH REGIMENT COMING.

Governor Miller received the following telegram yesterday:

Nashville, Tenn., June 24, 1865.

Governor of Minnesota:

Orders have been issued to the Eleventh Minnesota Infantry, numbering thirty-eight officers and eight hundred and seventy-one men to proceed to Fort Snelling, for muster into service.

HENRY M. CIST,

A. A. General.

REDUCING THE ARMY.

Seventy Thousand Additional Troops to be Discharged.

Col. Averill received the following telegram last evening, from which it seems safe to infer that a large number of Minnesota troops will be immediately discharged:

WASHINGTON, June 25.

On the 22d inst. the following additional reduction of the effective volunteer infantry forces present were ordered, viz:

Army of the Potomac, 18,000 men; Army of the Tennessee, 15,000 men; Middle Military Division, 7,000. The reduction will be made by the musters out of entire organization of veteran regiments having the shortest time to serve, including all recruits and additions to said regiments from other sources, also all absentees. The total reduction will be about 7,000. General orders ninety-four, current series, will govern the musters out and payments.

THOS. H. VINCENT, A. A. G.

Communication between New York and Richmond.

New York, June 25.

To day, for the first time in four years, direct overland communication is to be had between New York and Richmond; the old railroad route, with connection links of steamboats and stages, being opened.

Decision in the Assassination Trial.

New York, June 29.—The Posts special says the military commission met at 11 o'clock this morning in secret session, and the members agreed upon the verdict in the conspiracy case. The nature of the verdict is not known. Will be made known as soon as the President acts upon it.

NEWS ITEMS.

—A Havana letter, describing the escape of Breckinridge and party, says that they prepared a small boat at St. John's, headed it across the country to Indian river, and launched it in an inlet communication with the ocean; moved down the coast sixty miles, subsisting on shell fish and turtle's eggs. A United States gunboat saw them and sent a boat to see who they were. Col. Wood and two others went out to meet the boat. He said he was a wrecker and fisherman, and the balance of the party were paroled prisoners. They exhibited papers and were allowed to go. Col. Wood invited the others who examined his papers to go on shore and dine with him on shell fish, but he declined. That evening they left shore, having a few dozen of eggs and some clams. They reached Cardenas about thirty-six hours afterwards having spoken a vessel and procured supplies of fresh water. They suffered much from hunger during their journey, and only one person at a time could sleep in the boat.

—The federal postmaster at Stanton, Va., was owing the government about twelve hundred dollars at the commencement of the rebellion. He visited Washington last week to settle up the old account by filing receipts of the "confederate government" for that amount. His acknowledgment was unbounded when the offer was declined.

—News from Sully's expedition, dated June 6th, says two expeditions are contemplated, one to co-operate with a force from Minnesota, in preventing her incursions into the frontier settlements, and the other to establish a new fort on Powder river, and open a road to Idaho.

—The Orange and Alexandria Railroad has been turned over by the General Government to the State of Virginia, and will immediately be put in running order by the contractors.

—The Herald's special says that Gen. Butler's friends are presenting his name for the Military Governorship of South Carolina, in case he should fail in obtaining the civil one to Idaho.

—A report prevails that Sherman will be assigned to a command in the West, with his headquarters at St. Louis.

—General Blair, in a speech at St. Louis, on Thursday, took ground in favor of the people of the Southern States regarding the suffrage question themselves.

—Subscriptions for the Lincoln monument, at Springfield, are coming in at the rate of from \$50 to \$1,000 daily.

Over fifty vessels which were attached to the Mississippi squadron, are to be sold at auction, at Mount City, on the 17th August next.

The commands to be given to Gen.erals Meade, Sherman, and Halleck have been decided upon, but they have not yet received the formal assignment.

—Gen. Beauregard was arrested at New Orleans last week, and is now on his way to Washington.

U.S. 7-30 LOAN

THIRD SERIES

\$230,000,000.00

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths percent. interest per annum, known as the

SEVEN THIRTY LOAN.

These Notes are issued under date of July 15, 1865, and are payable three years from that date in currency or are convertible, at the option of the holder into

U.S. 5-20 Six per cent. GOLD-BEARING BONDS

These bonds are worth a premium which increases the actual profit on the 7-30 loan, and besides this its exemption from State and municipal taxation, which adds from one to three percent. more, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker. The interest amounts to

One cent per day on a \$50 note.
Two cents " " " \$100 "
Ten " " " \$500 "
20 " " " \$1000 "
\$1 " " " \$5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions. The Notes of this Third Series are precisely similar in form and privileges to the Seven Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent. instead of 7 3/10ths in currency. Subscribers will deduct the interest in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be used, of course, so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths percent. in currency. This is.

THE ONLY LOAN IN MARKET

now offered by the Government, and it is the GREAT POPULAR LOAN OF THE PEOPLE.

Less than \$230,000,000 of the Loan authorized by the last Congress are now on the market. This amount, at the rate at which it is being absorbed, will all be subscribed for within two months when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans. It now seems probable that no considerable amount beyond the present series, will be offered to the public.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers, throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

Carver. Herman Muhlberg, Ferdinand Strachan, Peter Weego, Charles Gebhard.

PROGRAMME.

ORDER OF THE DAY.

1. Reading of the Declaration of Independence. Wm. B. Newcomb Esq.
2. Oration by Hon. Frank Warner.
3. Reading of the Declaration of Independence in German, by Professor C. B. Schulz, after which.
4. Several German Gentlemen will deliver addresses in German.
5. Music by the Goetz Brass and String Band.
6. Singing of Patriotic songs, by the Chaska and Carver Glee Clubs.

After which the audience will repair to tables prepared for the occasion. After dinner Singing, Dancing, and general amusements will be indulged in. Commodious Dancing Floors will be prepared for all who desire to trip the fantastic toe. The Goetz Band, will entertain the occasion.

The grounds prepared for the occasion are in the grove on the farm owned by Jacob Blinger Esq. near the Chaska and Carver road.

The procession will form at 10 A. M. near the liberty pole on Broadway St. at Carver, thence will proceed down Broadway St. thence down First St. thence to Chaska, then the procession will march down Levee St. thence up Walnut St. thence up second St. to the Grove.

COMMITTEE.

Lumber.

Ferdinand Theis has received a large supply of fine Lumber of all kinds which he offers to sell at lower prices than can be bought in Minneapolis and transported to this place. Give him a call.

Personal.

Linus A. Lee returned home yesterday on a furlough of thirty days, he was one of the first to enlist at the commencement of the war; served three years in the Fourth Regiment, and then reenlisted as a veteran, with Sherman in his campaign through Georgia, South Carolina, and thence to Washington. Notwithstanding his years of hard service he is looking finely, claims "to be good for another four years if his services are needed in the defence of his country."

EXTENSION AND PICNIC.—The Teachers and children connected with the Academy of this place together with such of the parents as chose to attend, left on an excursion to Excelsior and Lake Minnetonka yesterday, and enjoyed a pleasant picnic by the "Great Water" but received a decided dumper from the unexpected but of late infalling Friday shower. The school here is in a flourishing condition, and numbers at the present time nearly one hundred scholars.

THE WEATHER.—During the past week we have been favored with several showers but not enough rain has fallen yet to affect the river which is only about eight inches higher than the lowest water of last year. The crops however have been very much benefited and never looked better than at the present, unless something unforeseen should occur the wheat crop in this county will be much larger than ever before.

Winnebago Reservation.

The General Land Officer, acting under orders of the Secretary of the Interior, has advised the local land officers at St. Peter, Minnesota, that the lands within the old Winnebago Indian Reservation cannot be sold at a price less than their appraised value, until otherwise ordered by the Secretary. There are some eigh-

teen thousand acres of valuable land within the Reserve, still undisposed of. Appraisements are from \$1.25 to \$3 per acre.

Red River Train.

The van of the Red River train, at St. Paul, thirty-five carts, loaded with furs, arrived yesterday. About one hundred more carts are on their way down, and will soon arrive. Since the completion of the St. Paul & Pacific Railroad to Elk River, but very few carts come all the way to St. Paul, as it is cheaper and much more convenient to unload at the terminus of the railroad, send their furs down by rail and receive their supplies the same way in return.

Thus the progress of civilization in her onward march, draws back the rude makeshift of barbarism, and plants in their stead the more convenient improvements which spring from the brain of modern advancement.

COMPLIMENTS TO SECOND CAVALRY BAND.

Steamer Mollie Moyer.

Will make a Pleasure Excursion from Carver, Chaska and Shakopee to Merrimack, and return to Carver.

On The 4th of July.

Leaving Carver at 5 A. M., Chaska, half past five, Shakopee, 6:12 o'clock; landing at Hennepin, Bloomington, Credit River, Fort Snelling and Mendota; leaving St. Paul for Merrimack at half past ten; returning so as to start from St. Paul for Carver at 5 same evening. TICKETS, \$1.00 EACH FOR ROUND TRIP.

PROSPECTUS

OF THE
ATLANTIC
for
1865

With the January number began the 15th Volume of the Atlantic Monthly. The publishers state that they have made such arrangements for the coming year as will convince their readers that they intend to maintain the present position and popularity of their magazine. They can now announce definitely the following features of the New Volume:

Mrs. Harriet B. Stowe—will contribute a new series of Domestic Papers, with the title of "The Chimney Corner."

Donald G. Mitchell—author of "Reveries of a Bachelor," will begin in an early number a story with the title of "Dr. Johns."

Prof. Goldwin Smith—of the University of Oxford, has engaged to write regularly during the year, on topics of interest to American readers.

Prof. Agassiz—has in preparation another series of his interesting and valuable Scientific Papers.

Nath Hawthorne's Papers—furnish some scenes from his unfinished work, "The Dolliver Romance."

Fitz-Hugh Ludlow—will continue his admirable sketches of travel and adventure.

Mr. and Mrs. S. C. Hall will contribute to the new Volume many of the most interesting reminiscences of Moore and other literary celebrities.

The "author of TEN ACRES ENOUGH" will furnish the ATLANTIC with regular articles of strikingly original character.

The magazine will still be favored with constant contributions from its regular staff of writers, whose names are familiar to the reading public as those of the "First American Authors."

The Atlantic will continue to furnish to its readers the best Essays, Sketches, Poems, Political and Historical Papers, and Miscellaneous of all kinds, which American talent can supply.

HELMHOLD'S

GENUINE

Preparations.

COMPOUND Fluid Extract Broom, a Positive and Specific remedy for diseases of the Bladder, Kidneys, Gravel and Dropsical Swellings. It is a Powerful Urinary Antiseptic, and excites the Absoberents into healthy action, by which the Watery or Catarrhal discharges, and all Unnatural Enlargements are reduced, as well as Pain and Inflammation.

HELMHOLD'S EXTRACT BUCHU.

For Weakness arising from Excesses, Habits of Disipation, Early Indulgence of Abuse, attended with the following symptoms: Indisposition to Exercise, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Disease, Wakefulness, Dimness of Vision, Pain in the Back, Universal Lassitude of the Muscular System, Hotness, Flushing of the face, Dryness of Skin, Eruptions on the Face, Pallid Countenance, These symptoms, if allowed to go on, which this medicine invariably removes, soon follows Impotency, Fatuity, Epileptic Fits, In one of which the Patient may expire. Who can say that they are not frequently followed by those "Fetid Diseases."

"Insanity and Consumption" Many are aware of the cause of their suffering, but none will confess the records of the insane asylums. And especially deaths by consumption bear ample witness to the truth of the assertion. The Constitution once affected with Organic Weakness requires the aid of medicine to strengthen and invigorate the system, which Helmholt's Extract Buchu invariably does. A Trial will convince the most skeptical.

FEMALES - FEMALES - FEMALES.

In many affections peculiar to females the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness, or Suppression of Menstruation, Eruptions or Scabrous state of the Uterus, Leucorrhoea or Whites, Scarcity, and for all complaints incident to the sex, whether arising from indigestion, habits of dissipation, or in the Decline or Change in Life.

Take no more Bismarck, Mercury or unpleasant medicines for unpleasant and dangerous diseases. Helmholt's Extract Buchu and Improved Rose Wash Cures.

Secret Diseases.

In all their stages. At little expense, little or no change in diet. No inconvenience, and no exposure. It causes a frequent desire and gives strength to urinate, thereby removing obstructions, preventing curing secretions of the urethra, allaying pain and inflammation, so frequent in the "class of diseases" and expelling all "poisonous humors" and morbid matter.

Thousands upon thousands who have been the Victims of Quacks, and who have paid "heavy prices" to be cured in a short time, have found they were deceived, and that the "Poison" has by the use of powerful instruments, been dried up in the system, to break out in an aggravated form and perhaps after Marriage.

Use Helmholt's Extract Buchu for all affections and diseases of the Urinary Organs whether existing in Male or Female, from whatever cause originating and no matter how long standing.

Diseases of the Urinary Organs requires the aid of a Powerful Urinary Antiseptic. Helmholt's Extract Buchu is the great Urinary Antiseptic, and is certain to have the desired effect in all diseases of the Urinary Organs, and is the only remedy of the kind at all affordable, and responsible character will accompany the medicine.

Price \$1.00 per bottle, or six for \$5.00, delivered to any Address, securely packed from observation. Describe symptoms in all communications. Cures Guaranteed!!! Advice Gratis!!! Address letters for information to H. B. HELMHOLD, Chemist, 101 South Third St., St. Paul, Minn. Helmholt's Medical Depot, Helmholt's Drug and Chemical Warehouse, 301 Broadway, New York.

Beware of Counterfeits and Unreliable Dealers who endeavor to dispose of their own and other "articles" on the reputation attached by Helmholt's Genuine Preparations. Extract Buchu. " " Strengthening. " " Improved Rose Wash.

THE FIRST MARTYRS OF THE WAR

DEDICATION OF THE LADD AND WHITNEY MONUMENT AT LOWELL.

The dedication of the monument erected to the memory of Luther C. Ladd and Addison O. Whitney, of the 6th Massachusetts regiment, who fell at Baltimore April 19, 1861, which was postponed from April 19 last, took place at Lowell, 17th with imposing military, and masonic ceremonies. The famous 6th and 88d regiments performed escort duty, aided by several other military organizations. Conspicuous in the procession were the masonic fraternity, including the Boston encampment of Knights Templars, the Grand encampment of Massachusetts and Rhode Island, the Worcester county encampment, numerous local lodges and the Grand lodge of Massachusetts. The firemen, Oddfellows, invited guests and citizens generally made up an immense procession, which marched through the principal streets leading to the park in which the monument had been erected. After the brief ceremonies of the dedication, which were mostly masonic, Gov. Andrew delivered an eloquent oration.

The monument is built of granite and is erected in Merrimack square, opposite the Merrimack House. The plan is cruciform, measuring 15 feet on the longer and 12 on the shorter arms, the whole height being 27 1/2 feet. The prominent features consist of a central shaft placed upon a plinth, and also of a high base, upon two sides of which, forming the longer arms, are two sarcophagi, having on both sides respectively, L. C. Ladd and A. O. Whitney, the ends of the sarcophagi being adorned with wreaths of stone. The corners of the sarcophagi are ornamented with thirteen raised stars. Upon the other two sides of the base, forming the shorter arms, are two plinths, the same height of the sarcophagi, with appropriate inscriptions. The horizontal are merged into the vertical lines by fluted trusses surmounted by stars, resting upon the four arms, and above these is a plinth, with a mouldered base and ornamental cornice, two sides of which are plain, the others containing bronze medallions of the coat of arms of the state of Massachusetts and of the city of Lowell. Upon this plinth is a shaft with pyramidal top. The composition has a pleasing outline and is altogether very tasteful.

A pleasing incident attending the exercise was the presentation of an elegant silk flag, a silver plate on the staff of which bears the following inscription: "Maryland to Massachusetts, April 19th 1861. May the Union and friendship of the future obliterate the anguish of the past." Lieut. Tyson of Gov. Bradford's staff presented the flag with an eloquent address, which was appropriately responded to by Gov. Andrew.

A YANKEE BLONDIN.

A Thrilling Description of a Foolish Exploit.

The grand sensation of the season at Niagara was on Thursday auspiciously inaugurated by the successful debut of Harry Leslie, the American Blondin, who demonstrated the perfection of rope walking science and the boundlessness of Providential forbearance, by crossing and recrossing the frightful chasm of Niagara River immediately below the Suspension Bridge. The number of spectators present on the Canadian side was estimated at six thousand. Early in the forenoon a drizzling rain set in, with every indication of a continuance through the day, and it was generally believed that Leslie's performance must unavoidably be postponed in consequence. However, the vast company were not to be frustrated in their designs, and dauntlessly braved the torrent of rain. Shortly before three o'clock

in the afternoon the rain storm abated, and the appearance of patches of blue sky gave promise of a sufficient cessation to permit the rope walking exhibition, and the crowd rapidly concentrated in the vicinity of the bridge.

Leslie had stretched his rope across the river at about the location selected by Blondin in his second season, a point some six hundred feet below the bridge, over the first of the terrific rapids commencing at that place. It has a span of about eight hundred feet, and probably an elevation of two hundred feet from the water. The surge of the current at this point is tremendous, having a powerful effect upon the spectator on the bridge or banks, and the feat of crossing the seething abyss upon a single rope must be considered the acme of foolhardiness. The line is about a four-inch Manila, and is stayed by eighty guys, twenty leading from a side to each bank, an open space of about thirty feet occurring in the centre. The heavy rain during the day had contracted the tangle to a high degree, and the rope had but little sway, a third of the length being nearly horizontal.

Leslie is about twenty-eight years of age, five feet eight inches in height, rather slight in build, but lithe and agile, and possessed of great nerve and muscle. At 5:32 he emerged from the stand on the American side, immediately clearing a perpendicular precipice of over two hundred feet, and his wife was observed to take her position at the end of the rope and watch his progress with intense interest. Amid the grandeur of the surrounding scenery, the daring adventurer seemed like a blimpian upon the airy course, and his appearance was the signal for a sudden silence only disturbed by the roar of the restless waters beneath. He proceeded slowly and cautiously, and when about one fourth of the distance, sat down upon the rope and rested a few moments. Again resuming his journey, he was noticed to hesitate at intervals, as if fatigued, but after passing the centre space he stepped very regularly and without hesitation until the stand on the Canadian shore was gained. A loud cheer greeted the success of the feat, which was taken up along the bridge to the American bank, and the hands again struck up music. The time occupied in crossing was six minutes forty-eight seconds.

Leslie appeared quite cool and cheerful on his arrival, remarking that he was entirely at home on the rope, but complained that the unequal strain of the guys, in consequence of the rain, had rendered the undertaking extra perilous, and great difficulty was experienced in getting the right step in crossing the fastenings. After a brief rest on the Canada side, employed in a familiar chat, Leslie again placed the balancing pole and started on his return, the time being twelve minutes to five o'clock. He proceeded down the incline with the same caution manifested in his first start, and evidently experienced increased difficulty in passing the guys leading from the Canadian shore. At times he was noticed to retrace his steps, advance and again retire several times, on approaching a point where a guy was fastened, it seeming to require great skill and the exercise of caution against a sudden jog of the rope liable at these points. A short distance out he performed the feat of standing upon his left foot, placing the ball of his right foot against the left knee. Gaining the centre of the rope, he lay down upon his back and exhibited his expert balancing powers by regaining his feet in a quick and graceful manner. On reaching the opposite incline, as usually noted in the performances of rope walkers, he lost no further time, but proceeded rapidly to the bank. The time occupied in the second crossing was thirteen minutes and twenty-two seconds. This ended the exhibition of the day, and the successful termination was greeted with prolonged cheers. The general impression seemed to be that Leslie is the equal of Blondin.

—A young girl at school, engaged in the study of grammar, was asked if "kiss" was a common or proper noun? The girl, blushing deeply, with hesitation, replied: "It is both common and proper."

—A young lady, while walking with a gentleman, stumbled, and when her companion, to prevent her fall, grasped her hand somewhat tightly. "Oh, Sir!" she simpered, "if it comes to that, you must ask my pa."

—Why are people who stutter not to be relied on?—Because they are always breaking their word.

Casualties of the war—The Losses in Other Wars.

From the New York Commercial Advertiser.

Official estimates at the War Department compute the number of deaths in the Union armies since the commencement of the war, including the starving prisoners, at three hundred and twenty-five thousand. There has doubtless been fully two hundred thousand Southern soldiers removed by disease and the casualties of battle, so that not less than five hundred and twenty-five thousand lives have been sacrificed in this unholy contest, begun and prolonged by the South in their vain effort to build up a new republic and strengthen the slave power.

Our greatest losses during any one campaign occurred at Gettysburg, when 23,267 Union soldiers were killed, wounded and taken prisoners. Hooker's campaign of 1863 in the Wilderness ranks next to Gettysburg, as far as regards Union losses, they having amounted to twenty thousand, though generally reported at only ten. Burnside lost 12,200 in the battle of Fredericksburg; McClellan 11,426 at Antietam; Porter 9,000 at Gaines' Mills; Rosecrans 12,685 at Murfreesboro and 16,851 at Chickamauga; and Sherman about 9,000 in the two battles around Atlanta.

The official reports of Gen. Grant's losses from the time he crossed the Rapidan until receiving the surrender of Lee compute them at ninety thousand. In the various engagements fought by Gen. Grant in the West, he lost 13,573 men, at Pittsburg Landing, 9,873, in the severe contests around Vicksburg, and in the attack on Missionary Ridge about seven thousand.

Though our losses in many of the campaigns have been heavy, they yet fall below those incurred in some of the European wars. This has been due, to a considerable extent, to the efficiency of the medical department and the lavish amount of supplies at least one-third greater than those furnished to any European army. A report recently made to the Imperial Academy of Medicine, by Chenu, Physician of the French army, estimates the losses of that army in the Crimean war as follows: Killed on the field of battle or missing, 102,410; lost in the Semilante, 702; died in various diseases at Alma, 884; died of cold, apoplexy, etc., before Sebastopol, 4,342; died in the field and general hospitals, 72,247; total, 95,615. Thus, of 339,264 men sent by France to the Crimea, about one-third found a soldier's grave.

The siege and reduction of Jerusalem resulted, says Josephus, in the loss of 1,000,000 lives. 90,000 Persians were placed hors du combat at the battle of Arbela, and 100,000 Carthaginians in the engagement of Palermo. 15,000 infantry and 10,000 cavalry perished on the fatal field of Issus. Spain lost 2,000,000 lives during the persecution of the Arabians, and 800,000 in expelling the Jews Frederick the Great inflicted a loss of 40,000 on the Austrians in the conflicts of Leuthen and Leignitz. The battle of Jena and the lesser engagements immediately following cost the Prussian army over 80,000 men. At the battle of Leipzig, the French suffered casualties to the amount of 60,000, and the Swedes and Russian soldiers lay dead and dying on the field after the battle of Moskowa, and Napoleon again lost 47,000 men at Waterloo, and the Duke of Wellington 15,000 more.

The Verdict of the Military Commission in the Assassination Cases.

A Washington special says the Executive is deliberating on the verdict of the military commission, and will examine the voluminous testimony closely before rendering a decision. It is understood that the President is by no means pleased with the responsibility imposed upon him of endorsing the proceedings, and it is not improbable that he may quash the affair and order a new trial by the civil courts. All the prisoners were found guilty by the court.

GREAT TORNADO IN VIROQUA, WISCONSIN.

Seventeen Persons Killed.

From the La Crosse Democrat, Saturday 1st.

Thursday afternoon we received notice that on Wednesday a storm of wind had swept over a portion of the village of Viroqua, the county seat of Vernon county, and that several were killed, a large number wounded, and that a large portion of the village was destroyed. At half-past six in the afternoon we started by team, drove to the "Mills" on Coon Creek, put up with Andrew Anderson for the night, reaching Viroqua at nine on Friday morning, arriving home on Friday afternoon, having in twenty-three hours driven seventy miles and witnessed the most terrible effects of wind we ever saw in this country, the particulars of which we hasten to lay before our readers.

VIROQUA.

The county of Vernon, (hitherto Bad Ax) adjoins La Crosse county on the south and southeast. Viroqua, distant thirty-five miles from La Crosse, is the county seat, and contains about one thousand inhabitants. It is a pleasant inland village, on high table land, in the center of a valuable farming district largely under cultivation. The village had always been a quiet, steadily prospering place. The buildings, not large, but were in good taste and repair, and especially in the south part of the place, characterized by an air of ease and refinement desirable to hold.

THE STORM—COURSE AND DURATION.

At four o'clock, black clouds rolling heavily in the sky, betokened a storm. In a few moments the wind sprang up, and almost immediately could be seen coming from the northeast a cloud of wind, rolling at times close to the earth—dust, sticks, &c., filling the air. At the same time there appeared another cloud of like nature coming directly towards the village from the west. The first current was passing to the southwest and the points of land met a half mile west of the village, when it seemed as if a mighty strife was going on between millions of invisible spirits in the two currents. People ran for their houses in terror—the whirlwind with a shriek and howl kept on its eastward course, the larger current turning the smaller one back, the two going on together in their work of destruction.

IN TWO MINUTES

its fury was spent at Viroqua, and the southern portion of the place (and the most beautiful) was made a scene of wilder and more terrible devastation than we ever witnessed before.

Dr. Tinker informed us that over 100 persons were hurt, 40 of whom are seriously injured, and about 12 of whom must die soon.

FORCE OF THE STORM.

Those who have not witnessed the scenes of devastation can form no idea of the terrible power of the whirlwind. The ground is torn as if plowed. Huge rocks ten feet square were hurled a distance of forty rods. Dwellings were razed to the ground, and hurled rods away. Huge oak trees were twisted from stumps like reeds. Timbers sixteen inches square and sixty feet long were hurled through the air as if they were feathers. The scene of desolation is beyond description. The ground over which the whirlwind passed looked as if a mighty stream of water had carried floodwood over it. Houses, out-houses, trees, shrubs, fences, &c., swept away as if God had in anger rubbed His hand over the spot. Houses were lifted a hundred feet into the air—horses were whisked off like swallows—rocks were broken down like dry bread.

Twenty-six houses and barns were completely demolished, and about forty buildings more or less injured.

SETTLED AT LAST.

The 6th, 7th, 8th, 9th and 10th Regiments coming Home Immediately.

WAR DEPARTMENT.

WASHINGTON, June 26, '65. His excellency, the Governor of Minnesota, St. Paul, Minnesota.

I have the honor to acknowledge the receipt of your letter of the 16th inst., renewing your request for the muster out of the 6th, 7th, 8th, 9th, 10th and 11th Minnesota Volunteers. In reply I am directed to inform you that these Regiments are included in the list of those to be immediately mustered out of service, and the Commanding General

of the Department in which they are serving, has this day by telegram been asked for the dates of discharge, which, when received, will be promptly communicated to you.

Very respectfully, your obedt servant,
THOS. M. VINCENT, A. A. G.

The Business of the Assassination Court-Martial.

The following items will give some idea of the immense labor which has devolved upon the court-martial:

Total number of witnesses subpoenaed, 463; number of witnesses examined, 361; number examined, including recalls, 422; number subpoenaed for prosecution, 247; number actually examined, 198; number subpoenaed for defense, 236; number actually examined, 163; total number of pages of testimony [legal cap], 4,300;—making a solid pile of manuscript somewhat over twenty-six inches high. The arguments will make in addition 700.

The vast mass of deposition, &c., taken by three Judge Advocates (Col. Burnett, Col. Foster and Col. Olcott), prior to the opening of the case, employed five shorthand writers a fortnight, and will take two experienced clerks six weeks to brief and file away.

In this, as in all State trials, the Government pays the expenses of witnesses for the defense, as well as the prosecution, at the rate of \$3 per day, and the actually cost of transportation to and from the witnesses' homes.

Immense Business Sale.

The New York World is publishing a list of the amount of the yearly sales of the New York merchants. One firm, that of Chaffin, Mellen & Co., sold goods to the amount of \$42,000,000, and A. T. Stewart's wholesale down town department over \$29,000,000. These lists bring to light, also, firms scarcely heard of out of their own business circles, who do a regular business of from five to eight millions per annum. The facts given by these tax returns show in a striking manner the enormous wealth and business of the merchants of the metropolis.

U.S. 7-30 LOAN

THIRD SERIES
\$230,000,000.00

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the sale of United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths percent, interest per annum, known as the

SEVEN THIRTY LOAN.

These Notes are issued under date of July 15, 1865, and are payable three years from that date in currency or are convertible, at the option of the holder into

U.S. 5-20 Six per cent. GOLD-BEARING BONDS

These bonds are worth a premium which increases the actual profit on the 7-30 loan, and besides this its exemption from State and municipal taxation, which adds from one to three percent, more, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a \$50 note.
Two cents " " " \$100 "
Ten " " " \$500 "
20 " " " \$1000 "
\$1 " " " \$5000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions. The Notes of this Third Series are precisely similar in form and privileges to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent, instead of 7-30ths in currency. Subscribers will deduct the interest in currency up to July 15th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-Thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in gold be availed of, would so reduce and equalize prices that purchases made with six per cent, in gold would be fully equal to those made with seven and three-tenths percent, in currency. This is

THE ONLY LOAN IN

MARKET

now offered by the Government, and it is the GREAT POPULAR LOAN OF THE PEOPLE.

Less than \$250,000,000 of the Loan authorized by the last Congress are now on the market. This amount, at the rate at which it is being absorbed, will all be subscribed for within two months when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans. It now seems probable that no considerable amount beyond the present series, will be offered to the public.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers, throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE

SUBSCRIPTION AGENT, Philadelphia.

Subscriptions will be received by the

Saturday Morning July 8th

MARRIED.
In Chaska, the 6th inst., at the residence of T. D. Smith Esq., by the Rev C. B. Shultz, J. A. Sargent and Lillian P. Thompson, daughter of the late R. T. Thompson Esq. of Troy New York.

New Books.
Messrs Ticknor and Fields of Boston Mass. the publishers of the Atlantic Monthly and Our Young Folks, are issuing in neat pamphlet form, under the title of "Household Poems" the best productions of the first poets. We have received one copy, each of selections from Longfellow and Tennyson and admire them very much. They are filled with short poems, sweet echoes of the soul, and afford much real pleasure and profit in their perusal.

The Atlantic and Young Folks stand first in each of the classes of literature to which they belong, and so with all their publications, nothing is issued by them but the choicest fruits of learning. The series of poems of which we speak are good for a lifetime. Send for a copy and be sure you will send for more.

The Celebration.

Every one welcomes the 4th of July, and doubtless most Americans feel a true pride in celebrating the anniversary of our Independence, but we doubt if there are many who are not as glad to see it over as to see it come, and the oft repeated remark that "Fourth of July comes but once a year" is fully in keeping with their wishes on that point.

Our Chaska and Carver Celebration passed off quite pleasantly, though the weather was extremely oppressive and the crowd a big one, numbering not far from 1500. Many families came in fifteen or twenty miles to enjoy the day.

The procession from Carver, consisting of about twenty teams, headed by the Band, paraded our streets about 12 o'clock, marching from here to the picnic grounds where addresses were delivered in English and German; also the Declaration of Independence read by Rev. C. B. Shultz in German, and Mr. Thomas Clancy in English, after which came the dinner, which occupied some two hours, the tables being wholly inadequate to seat the great company. After dinner a crowd gathered at the Dancing Grounds where beer was plenty and dancing the rage until broken up in a row and rain-storm just at the edge of the evening, but resumed again at the "Garibaldi" until "broad-day-light."

Sore Heads.

There has been a general row among the Beer Guzzlers for a week past, yelling and howling being the tune until Tuesday night, when the beer began to work, and Windolph & Son pitched in to a returned Soldier at the Frank Siegel House, because he would dance with a young lady, (so we are informed,) giving him a sound drubbing; for which they accepted a cordial invitation to walk up before Justice of the Peace Dressel, and were relieved of respectively \$15 and \$10 each, with costs. The next evening Messrs Shishmon, Gobelch & Co. balanced the account as they supposed by giving Windolph & Co., a terrible punishment, cutting up his "bread-trap" and putting a "slutter" on his companions left eye; beating their countenances so that they are as black as a negro's, but on an examination at the abovementioned Justice's they found a little balance against them also, of \$15, each and costs, which after careful consideration they concluded to pay. This transaction adds the nice little sum, of \$70.00 to the School Fund, and we think it might be increased by another hundred without doing injustice to any one.

Poor Argus.

Our self-conceited neighbors over the river, the editors of the *Shakopee Argus*, unfortunately but seldom have any thing of local interest to fill their pages but low-lived personalities; interesting only to the so-called editors and the authors of this species of literature. (We understand that when they write the editors smutty enough themselves the editors do it for them,) and now that we have taken the liberty to in a few words give the substance of a statement of theirs, regard-

ing the storm of June 16th commencing with—"The *Shakopee Argus* says &c. they flatly accuse us of stealing from their paper. If this is not giving them proper credit we misapprehend and if ever again we find anything worth copying, we must look to the fine discriminating powers of Messrs Peck & Russell for instructions lest we fail to give them all the credit they deserve and this we suspect is no more than they need.

Some six weeks since the *Argus* stated that Mr. Sencerbox and others of that place had sold village lots, some with dwellings thereon, for from \$2.50 to \$6.00 each, which mistake we kindly informed them of, on meeting them the following week; they however denying it until pointed out in their paper. The next week they very graciously said they had discovered a mistake. (They might discover a good many more.) This week they thunder forth the demerits of the "substitute for a paper, the Valley Herald," for, chief among its sins, having said \$15.00 was the loss sustained by a certain gentleman in Shakopee by the storm, where it should have said \$1500. The mistake was however corrected after but a few sheets were struck off, but the *Argus* is frantic on having discovered our error, Poor *Argus*!! Well that your head is of copper or it would have hurt you worse.

Found.

On Sunday the 2nd inst., in the village of Chaska, a pocket-book containing a small sum of money, which the owner can have by proving property and paying for this advertisement.

The attention of the Public and the Trade is invited to our new scale 7 octave ROSEWOOD PIANO FORTES, which for volume and purity of tone are unrivalled by any others offered in this market. They contain all the modern improvements, French, Grand Action, Harp Pedal, Iron Frame, Over-String Bass &c., each instrument being made under the personal supervision of Mr. J. H. Grovesteen who has had a practical experience of over 25 years in their manufacture, is fully warranted in every particular.

The "Grovesteen Piano Fortes" received the highest award of merit over all others at the celebrated World's Fair. Where were exhibited instruments from the best makers of London, Paris, Vienna, Philadelphia, Baltimore, Boston, and New York, and about the 300,000 visitors for five or six consecutive years, the gold and silver medals from both of which can be seen at our warehouse.

By the introduction of improvements we make a still more perfect Piano Forte, and by manufacturing largely with a strictly cash system, are enabled to offer these instruments at a price which will preclude all competition.

Prices.—No. 1, Seven octave, round corners, Rosewood plain case \$275.
No. 2, Seven octave, round corners, Rosewood heavy moulding \$300.
No. 3, Seven octave, round corners, Rosewood Louis XIV style \$325, a facsimile of the above cut.

HOSTETTER'S.

CELEBRATED

Stomach Bitters.

A pure and powerful tonic, corrects and alleviates a wonderful efficacy in disease of the Stomach, Liver and bowels. Cures Dyspepsia, Liver complaint, Headache, General Debility, Nervousness, Stagnation of the Blood, Constipation, Colic, Intermittent Fevers, Cramps and Spasms and all

Complaints of either Sex arising from bodily weakness whether inherent in the system or produced by special causes. Nothing that is not wholesome genial and restorative in its nature enters into the composition of Hostetter's Stomach Bitters. This popular preparation contains no mineral of any kind, no deadly balanced element, no fiery excitement, but is a combination of the extracts of rare and sanative herbs and plants with the purest and mildest of all diffusive stimulants.

It is well to be forewarned against disease, and so far as the human system can be protected by human means against it, Hostetter's Bitters may be relied on as a safeguard.

In districts infested with Fever and Ague, it has been found to be a preventive and in its use under apprehension of an attack, escape the scourge, and thousands who neglect to avail themselves of its protective qualities in advance are cured by a very brief course of this marvellous medicine. Fever and Ague, periodic, after being pided with quinine for months in vain, and fatigued by that dangerous affliction, are not infrequently restored to health within a few days by the use of

Hostetter's Bitters.

The weak stomach is equally invigorated and the appetite restored by this agreeable Tonic and hence it works wonders in cases of Dyspepsia, and in the commonest form of Indigestion. Acting as a gentle and powerful aperient, as well as upon the liver, it also invariably relieves Constipation unaccompanied by irregular action of the digestive and excretory organs.

Persons of feeble habit, liable to Nervous Attacks, loss of Sleep and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

The agency of Billings Collie is respectfully assigned by a singular coincidence to the Bitters, and by constantly resorting to it, the return of the complaint may be prevented.

As a General Tonic, HOSTETTER'S BITTERS produces effects which must be experienced or witnessed before they can be fully appreciated.

In cases of Constitutional Weakness, Debility, Decay and Debility and Deceptive Underlying from Old Age, it cures the electric influence. In the convalescent stages of all diseases it cures areas a delightful invigorant. When the powers of nature are relaxed, it operates to restore and re-establish them.

Last, but not least, it is

The Only Safe Stimulant.

being manufactured from sound and innocuous materials, and entirely free from the deleterious elements present more or less in all the ordinary tonics and stimulants of the day.

No family medicine has been so universally, and it may be truly said, deservedly popular with the intelligent portion of the community as Hostetter's Bitters.

PROSPECTUS

OF THE
ATLANTIC
for
1865

With the January number began the 15th Volume of the Atlantic Monthly. The publishers state that they have made such arrangements for the coming year as will convince their readers that they intend to maintain the present position and popularity of their magazine. They can now announce, definitely the following features of the New Volume:

Mrs. Harriet B. Stowe—will contribute a new series of Domestic Papers, with the title of "The Chimney Corner."

Donald G. Mitchell—author of "Reveries of a Bachelor," will begin in an early number a story with the title of "Dr. Johns."

Prof. Goldwin Smith—of the University of Oxford, has engaged to write regularly during the year, on topics of interest to American readers.

Prof. Agassiz—has in preparation another series of his interesting and valuable Scientific Papers.

Nat'l Hawthorne's Papers—furnish some scenes from his unfinished work, "The Dolliver Romance."

Fitz-Hugh Ludlow—will continue his admirable sketches of travel and adventure.

Mr. and Mrs. S. C. Hall will contribute to the new Volume Memoirs of Authors they have known, including many interesting reminiscences of Moore and other literary celebrities.

The author of "Ten Acres Enough" will furnish the ATLANTIC with regular articles of strikingly original character.

The magazine will still be favored with constant contributions from its regular staff of writers, whose names are familiar to the reading public as those of the First American Authors.

The Atlantic will continue to furnish to its readers the best Essays, Sketches, Poems, Political and Historical Papers, and Miscellaneous of all kinds which American talent can supply.

HELMBOLD'S

GENUINE
Preparations.

COMPOUND Fluid Extract Broom, a Positive and Specific remedy for diseases of the Bladder, Kidneys, Gravel and Dropsical Swellings. This Medicine increases the power of Digestion and excites the Absorbents into healthy action, by which the Watery or Catarrhal depositions, and all Unnatural Enlargements are reduced, as well as Pain and Inflammation.

HELMBOLD'S EXTRACT BROOM.

For Weakness arising from Excesses, Habits of Dissipation, Early Indiscretion of Abuse, attended with the following symptoms:—
Indisposition to Exercise, Loss of Power, Loss of Memory, Difficulty of Breathing, Weak Nerves, Trembling, Horror of Disease, Wakefulness, Dimness of Vision, Pain in the Back, Universal Lassitude of the Muscular System, Hot hands, Flushing of the face, Dryness of Skin, Eruptions on the Face, Pallid Countenance.

These symptoms, if allowed to go on, which this medicine invariably removes, soon follow:
Impotency, Fatuity, Epileptic Fits, In one of which the Patient may expire.

Who can say that they are not frequently followed by those of incurable Diseases.
"Insanity and Consumption"

Many are aware of the cause of their suffering, but none will confess the records of the insane asylums. And melancholy deaths by consumption, and many deaths by the truth of the assertion. The Constitution once affected with Organic Weakness requires the aid of medicine to strengthen and invigorate the system, which Helmbold's Extract Broom invariably does.

A Trial will convince the most skeptical.

FEMALES—FEMALES—FEMALES.

In many affections peculiar to females the Extract Broom is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness, or Suppression of Menstruation, Evacuations, or Scarcity of the Menstrual Discharge, Leucorrhoea or Whites, Sterility, and for all complaints incident to the sex, whether arising from indiscretion, habits of dissipation, or in the

Decline or Change in Life.

Take no more Balm, Mercury or unpleasant medicines for impotent and dangerous diseases. Helmbold's Extract Broom and Improved Rose Wash Cures.

Secret Diseases

In all their stages. At little expense. Little or no change in diet. No inconvenience, and no exposure.

It causes a frequent desire and gives strength to urinate, thereby removing obstructions, preventing and curing strictures of the urethra, all "class of diseases and expelling all "poisonous diseases and worn-out matter."

Thousands upon thousands who have been the Victims of Quacks, and who have paid "heavy fees" to be cured in a short time, have found they were deceived, and that the "Poison" by the use of "powerful" astrinents, had dried up in the system, to break out in an aggravated form and perhaps after Marriage.

Use Helmbold's Extract Broom for all affections and diseases of the Urinary Organs whether existing in Male or Female, from whatever cause originating and no matter how long standing.

Diseases of these Organs requires the aid of a Diuretic. Helmbold's EXTRACT BROOM is the great Diuretic, and is certain to have the desired effect in all Diseases for which it is recommended. Evidence of the most reliable and responsible character will accompany the medicine.

NEVER MORE NIGHT THAN DAY!

Ah! don't be sorrowful, darling.
And don't be sorrowful, pray,
Taking the year together, my dear,
There isn't more night than day.

'Tis rainy weather, my darling,
Time's waves they heavily run;
But taking the year together, my dear,
There isn't more cloud than sun.

We are old folks now, my darling;
Our heads are growing grey;
But taking the year all round, my dear,
You will always find a May!

We have had our May, my darling,
And roses have long ago;
And the time of year is coming my dear,
For the silent night of snow.

And God is God, my darling,
Of night as well as day;
And we feel and know that we can go
Wherever He leads the way.

A God of the night, my darling,
Of the night of death so grim;
The gate that leads out of life, good wife,
Is the gate that leads to Him.

Miscellaneous.

The Atlantic Telegraph.

From the London Times, June 20th.

At length all the preparations connected with the final departure of the great telegraphic expedition are completed. On Wednesday the Anachist left the telegraphic works with the last length of 145 miles of cable on board, and on Saturday the operation of coiling this in was begun. This work will probably last till the 22d inst., when the Great Eastern will have in her as nearly as possible 7,000 tons of cable, or, including the tonnage which contain it and the water in which it is sunk, about 9,000 tons in all. In addition to this she has already 7,000 tons of coal on board, and 1,500 tons more still to take in. This additional weight, however, will not be added until she leaves the Medway, which she will do on the morning of the 24th, for the New, when the rest of the coals and special stores will be put on board, and these will bring her mean draught down to 32 feet. Her total weight, including engines, will then be rather over 21,000 tons, a stupendous weight for any ship to carry, but well within the capacity of the Great Eastern, of which the measurement tonnage is 24,000. Her way out from the Nore will be by Balloch's Channel, which the Admiralty are having carefully buoyed to avoid all risk in those rather shallow waters. Before the following spring tides set in, about the 6th of June or July, the Great Eastern will start for Valencia. There she is expected to arrive about the 9th or 10th and there she will be met by the two ships of war appointed to convey her—the Terrible and the Sphinx. Both of these vessels are being fitted with the best apparatus for deep sea sounding; with buoys and means for buoying the end of the cable, if ever it should become necessary; and with Balloch's night-light naval signals, with which the Great Eastern is likewise to be supplied. To avoid all chance of accident the big ship will not approach the Irish coast nearer than 21 or 25 miles, and her stay near Valencia will be limited to the time occupied in making a splice with the massive shore end, which for a length of 25 miles from the coast, will be laid previous to her arrival. This monstrous shore end, which is the heaviest and strongest piece of cable ever made, will be despatched in a few days, and be laid from the head of a sheltered inlet near Cahiretreen out to the distance we have stated, where the end will be buoyed and watched by the ships of war till the Great Eastern herself comes up. Some idea of the strength and solidity of this great end may be guessed by the fact that its weight per mile is very little short of half the weight of an ordinary railway metal. For the shore end at Newfoundland only three miles are required, and this short length will be sent in the Great Eastern. When once the splice is made from the great cable ship to the English shore end—an operation that will consume about five hours—the work of laying the cable will instantly commence. By the time every mile of the cable in the three tanks will have been joined up, and at a stated hour, morning and evening, a series of signals will be sent through the cable to the land at Valencia, and thence to London, giving the latitude and longitude of the great ship, the state of the weather and the number of miles paid out. The

cable will be first taken out from the forward tank, next from that amidships, and lastly from that astern; and if all goes well the vessel should arrive with nearly 5,000 miles of cable in her still unused, an excess which is most wisely allowed in case of accident. We may add that since the paying out apparatus has been in work its action has been faultless.—Messrs. Canning, Clifford and Temple have absolute charge of all the details connected with the submergence. Mr. De Santry is in charge of the electrical condition of the cable, for the makers, Mr. Varley goes to represent the Atlantic Company, and Professor Thompson as scientific adviser and referee. These gentlemen, however, are only the chiefs of the various large departmental affairs which will be on board.

With regard to the process of laying, it is hoped the Great Eastern may be kept throughout the voyage at a uniform speed of six knots per hour, faster than which it would not be safe, as a rule, to run out the cable. At less speed than this, however, the big ship would fail of stowage way, and with a beam wind would certainly go to leeward without some counteracting influence. This influence will be afforded, if necessary, by the paddle-engines, which are to be disconnected, and the efforts of one wheel at either side would be quite sufficient to over balance the effects of anything but a very violent storm. This latter risk is now literally all that has to be feared. Everything else which human foresight can suggest, either in cable or ships, everything which long experience or scientific progress can devise, has been provided, and the success or failure of this vast expedition is now only a question of weather. On this only doubtful point, therefore, it is gratifying to know that Capt. Anderson is sanguine of all going well. In his experience of many years and hundreds of voyages backward and forward to command of the Cunard liners over this very track of the Atlantic, he states that in the early part of July it never blows long or strong, and that during that time he has never even heard of any bad weather which could for a moment affect a vessel like the Great Eastern.

Every good wife and every just husband will appreciate the following little sketch. It is such a vivid lining of life that thousands will see in it a reflection of something they have witnessed if not realized:

One day, as Zachariah Hodgson was going to his daily avocations after breakfast, he purchased a fine large codfish and sent it home, with directions to his wife to have it cooked for dinner. As no particular mode of cooking it was prescribed, the good woman well knew that whether she boiled it or made it into chowder, her husband would scold her when he came home. But she resolved to please him, if possible, and therefore cooked portions of it in several different ways. She also, with some little difficulty, procured an amphibious animal from a brook back of the house, and plumped it into the pot. In due time her husband came home; some covered dishes were placed on the table, and with a frowning, fault-finding look, the moody man commenced the conversation:

"Well, wife, did you get the fish I bought?"

"Yes, my dear."

"I should like to know how you have cooked it. I will bet anything you have spoiled it for my eating. (Taking off the cover.) I thought so. What is creation possessed you to fry it? I would as lief eat a boiled frog."

"Why, my dear, I thought you loved it best fried."

"You didn't say such thing. You knew better; I never loved fried fish. Why didn't you boil it?"

"My dear, the last time we had fresh fish, you know I boiled it, and you said you liked it best fried. But I have boiled some also."

So saying, she lifted a cover, and to the shoulders of the cod, nicely boiled, were neatly deposited in a dish, a sight which would have made an epicure rejoice, but which only added to the ill-nature of her husband.

"A pretty dish, this," exclaimed he. "Boiled fish! Chips and porridge! If you had not been one of the most stupid of womankind you would have made it into a chowder."

"My dear," said she, "I was resolved to please you. There is your favorite dish."

"Favorite dish, indeed?" grumbled the discontented husband. "I dare say it is an unpalatable, wishy-washy mess. I would rather have a boiled frog than the whole of it."

This was a common expression of his, and had been anticipated by his wife, who, as soon as the preference was expressed, uncovered a large dish near her husband, and there was a large bull frog, of portentous dimensions and pugnacious aspect, stretched out at full length! Zachariah sprang from his chair, not a little frightened at the apparition.

"My dear," said his wife in a kind, entreating tone, "I hope you will at length be able to make a dinner."

Zachariah could not stand this. His sallow mood was finally overcome, and he burst into a hearty laugh. He acknowledged that his wife was right, and that he was wrong, and declared that she should never have occasion to read him such another lesson—and he was as good as his word.

Saturday July 15th 1865

It seems surprising now that with all the freedom of action and of speech whether treasonable or not, which has been conceded to every one in the past years of the republic that there have been so few acts of lawlessness committed against the government, and we are led to appreciate the necessity of more strict discipline in the future, that repetition of the like may not again occur. There is little danger of this if the offenders feel assured that the halter will be their only friend when apprehended.

Local Intelligence.

Saturday Morning July 15th.

Drowned.

A Young man by the name of Charles Fos, was drowned at Carver on Friday the 7th inst. while bathing in the river. It seems that he was unable to swim and venturing too far out on a sand-bar, before he was aware stepped off into deep water and though he had a companion with him who had just swam to the opposite shore, he was unable to render assistance until too late. The deceased is of German descent, being a native of the free city of Hamburg and we learn has no relatives here except a brother but is well spoken of by those who knew him. He was 20 years of age, and had been in this country but a short time.

Returning Soldiers.

It will be seen that the 1st and 4th and 8th Regiments will soon be at home. The 4th was expected to arrive at St. Paul on Friday, and the 2nd on Saturday. The 8th started for home from North Carolina on the 11th inst. Some members of the Heavy Artillery have arrived at St. Paul, but we have been unable to learn when the regiment will come. The 11th which came to Fort Snelling last week, is not yet discharged, though the boys confidently expect to come home the first of this week. Those who are anxiously waiting for brothers and friends, must learn to be patient and not to expect soldiers until they are in sight. But it will be but a short time before the anxious watching and waiting will be over and all our noble boys who may return to gladden home once more, will be with us.

LATER.—The boys of the Eleventh came up last night.

Nearly Completed.

The new State road leading from Bloomington in this county to Chaska in Carver county, is nearly ready for travel. It is located on the north side of the Minnesota river, immediately under the river bluffs, and will be one of the best and most important roads in the county. The grading has been done under the supervision of H. H. Hopkins, one of the county commissioners of this county. No better man could have been selected. Well posted as what constitutes a good road, he has succeeded in this instance in performing the work in a faithful and judicious manner. Having been over the road, we are personally cognizant of what we state.—*Atlas.*

By the opening of this road we obtain a very direct and direct route to St. Paul and Minneapolis, which will eventually take all the travel on this side of the river, and make accessible much good land, on the bluffs which has been undervalued on account of its situation, besides adding much to the convenience of the public throughout all this portion of the county.

—The Third Illinois Cavalry started out from Fort Snelling the 5th on an Indian Expedition to the neighborhood of Devils Lake, and camped below this village Friday night remaining until Sunday morning. There seems to be some of the lawless element left among them yet, though a few have been awarded situations in our State's Prison.

J. Delamater Esq. was very cleverly relieved of his pocket-book containing \$85.00 while trading in one of our stores by two or three of them crowding around him, and undertaking to hold the change while he did the talking.

The regiment numbers about 600 men, and there are, together with the cavalry horses, 950 horses and oxen connected with the train, and 150 wagons carrying provisions &c. Altogether they presented quite a novel spectacle for this quiet town.

—The Grist Mill is now in complete order for all kinds of grinding and bolting, a new Bolt and Smut Mill having just been set up. It is said that they make excellent flour.

The mill requires but very little water to run, and is at present abundantly supplied so that all who wish for any thing in that line can expect to be accommodated without delay.

—J. A. Dunklee has commenced building a new barn at this place, to be 125 feet long and 20 feet wide, and intends having it about ready for use in a month from this.

State Items.

From the Wabash Herald.

A Gopher hunt came off in this county in the Town of Chester a few days since, which resulted in the destruction of 16,828 Gophers. Pretty good for one hunt. We have heard nothing as yet, of the annual Gopher hunt at Plainview.

THE orchard of Mrs. Morse, near Reed's Landing, gives promise of an abundant yield of apples. The sight of those beautiful trees, replete with red and green apples nestling amid the bright green foliage on the long waving limbs, is an ocular demonstration that apples can be successfully raised in Minnesota.

From the Taylor's Falls Reporter.

TELEGRAPH.—Messages were sent over the telegraph line from Stillwater to St. Paul on the 25th inst. The line will soon be completed to Point Prescot.

DRIVING.—A crew of men from Stillwater passed up river to bring in the remainder of the Snake river drive, estimated to contain 25,000,000 feet of lumber.

RAIN.—An abundance of rain has fallen within a week past. The weather seems to go from one extreme to another. After several years of drought we are to be thoroughly drenched with rain.

From the St. Cloud Democrat.

THE past week has furnished plentiful showers. On Wednesday night was one of the heaviest rains ever experienced in Minnesota. For several hours the lightning was so blinding, quivering sheet, and continuous peals of thunder seemed fairly to shake the earth. The rain poured down in torrents; and yet, what would seem strange elsewhere, the next forenoon the streets were scarcely muddy.

RETURNED.—Burbank & Co's transportation train, of one hundred and ninety cars, arrived on Monday morning from Fort Wadsworth, having made the round trip of over four hundred and fifty miles in about three weeks. This, with oxen, we would call a quick trip; and the credit is due in great measure to the energy of Mr. N. P. Clarke, under whose charge the train was.

From Red Wood Falls.

Fourth of July was celebrated at this young and thriving town, in Redwood county, by starting a new saw-mill, owned by Col. S. McHALL, and a quartz mill or crusher, owned by the Pioner Mining Co., consisting of J. B. CROOK, & others. Both mills proved a success, and, of course, the people of Redwood are highly delighted with their future prospects. In a word, the location of Redwood is a commanding one, possessing a superior water-power on the Redwood river, upon the banks of which the town is situated, and lying on the great thoroughfare running to Fort Wadsworth. Perhaps no town in western Minnesota is growing more rapidly, and we are glad to know that its founders and the surrounding farming population are an enterprising class of citizens. We shall have occasion to allude frequently to this place.—*St. Peter Advertiser.*

The Grasshoppers' Flight.

Last Saturday forenoon, the grasshoppers commenced flying over and through this place in countless myriads. Their course was south east; it was a fine day for their emigration. We brought a powerful spy-glass into use on this occasion, which showed that the air for quarter of a mile high was filled with them. At a distance of one to two hundred feet high, they have a silvery appearance; their speed may be set down at four to five miles an hour. Through and over every town or farm they pass, they leave a strong guard, and the destruction of crops of all kinds is quite sure to follow. Indeed, they are a horrible pest, for whose destruction no remedy has yet been devised.

In their flight over St. Peter, millions stopped and remained a day or two. They have now nearly all left without seriously injuring gardens. Nor did they materially injure the crops for many miles around, for which the farmers may be thankful.—*St. Peter Advertiser.*

—Letters written by Jeff. Davis to Charles O'Connor, his counsel, have been intercepted by the Government. The authorities have also refused to grant O'Connor an interview with his client.

Great Improvements in Sewing Machines.

EMPIRE SHUTTLE MACHINE!

Patented February 14th, 1860.

SALESROOM, 200 BROADWAY, N. Y.

200 WASHINGTON ST. BOSTON.

THIS MACHINE is constructed on entirely new principles of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be a SIMPLICITY and PERFECTION COMBINED.

It has a straight needle, perpendicular action, makes the LOCK or SHUTTLE STITCH, which will NEITHER RIP or RAVEL, and is alike on both sides; performs perfect sewing on every description of material, from Leather to the finest Nankin Muslin, with cotton, linen or silk thread from the coarsest to the finest number.

Having neither CAM nor COG WHEEL, and the least possible friction, it runs as smooth as glass, and is

ESPECIALLY a SUCCESSFUL MACHINE!

It requires FIFTY PER CENT. less power to drive it than any other Machine in the market. A girl two years of age can work it steadily, without fatigue or injury to health.

Its strength and WONDERFUL SIMPLICITY of construction renders it almost impossible to get out of order, and is GUARANTEED by the company to give entire satisfaction.

We respectfully invite all those who may desire to supply themselves with a superior article, to call and examine this UNRIVALLED MACHINE.

But in a more especial manner we solicit the patronage of

MADEIRA TAILORS, COAST MAKERS, GAITER FITTERS, HOOP SKIRT MANUFACTURERS, SHOE REPAIRERS, HAT AND FUR MAKERS, SHIRT & BOBBER MAKERS, DRESS MAKERS, Religious and Charitable Institutions will be liberally dealt with.

PROSPECTUS

for
1865

With the January number began the 15th Volume of the Atlantic Monthly. The publishers state that they have made such arrangements for the coming year as will convince their readers that they intend to maintain the present position and popularity of their magazine. They can now announce, definitely the following features of the New Volume:

Mrs. Harriet B. Stowe will contribute a new series of Domestic Papers, with the title of "The Chimney Corner."

Donald G. Mitchell—author of "Reveries of a Bachelor" will begin in an early number a story with the title of "Dr. Johns."

Prof. Goldwin Smith—of the University of Oxford, has engaged to write regularly during the year, on topics of interest to American readers.

Prof. Agassiz—will continue his interesting and valuable Scientific Papers.

Nat'l Hawthorne's Papers—furnish some scenes from his unfinished work "The Dolliver Romance."

Fitz-Hugh Ludlow—will continue his admirable sketches of travel and adventure.

Mr. and Mrs. S. C. Hall will contribute to the new Volume Memories of Authors they have known, including many interesting reminiscences of Moore and other literary celebrities. The author of "TEN ACRES ENOUGH" will furnish the ATLANTIC with regular articles of strikingly original character.

The magazine will still be favored with constant contributions from its regular staff of writers, whose names are familiar to the reading public as those of the *First American Authors*. The Atlantic will continue to furnish to its readers the best Essays, Sketches, Poems, Political and Historical Papers, and Miscellaneous of all kinds which American talent can supply.

TERMS.

Single Subscriptions - \$4.00 per year.

HELMHOLD'S

GENUINE

Preparations.

COMPOUND Fluid Extract Broom, a Positive

and Specific remedy for diseases of the Bladder,

Kidney, Gravel and Urinary Swellings.

This Medicine increases the power of Digestion

and excites the Absorbents into healthy ac-

tion, by which the Watery or Calcareous depositions,

as well as all Unnatural Enlargements are reduced,

as well as Pain and Inflammation.

HELMHOLD'S EXTRACT BROOM.

For Weakness arising from Excesses, Habits

of Disipation, Early Indiscretion of Abuse, at-

tended with the following symptoms:-

Indisposition to Exercise, Loss of Power, Loss

of Memory, Difficulty of Breathing, Weak

Nerves, Trembling, Horror of Disease, Wake-

fulness, Dimness of Vision, Pain in the Back,

General Lassitude of the Muscular System,

Hot hands, Flushing of the body, Dryness of

Skin, Eruptions on the Face, Pallid Countenance.

These symptoms, if allowed to go on, which

this medicine invariably removes, soon follows

Impotency, Fatuity, Epileptic Fits,

In one of which the Patient may expire.

We can say that they are not frequently fol-

lowed by those "Irritable Diseases,"

"Insanity and Consumption."

Many are aware of the cause of their suffering

but none will confess the records of the insane

asylum, and melancholy deaths by consump-

tion bear ample witness to the truth of the asser-

tion. The Constitution once affected with Or-

ganic Weakness requires the aid of medicine to

Strengthen and Invigorate the system, which

Helmhold's Extract Broom invariably does.

A Trial will convince the most skeptical.

Decline or Change in Life.

Take no more Balm, Mercury or unpleasant

medicines for unpleasant and dangerous diseases.

Helmhold's Extract Broom and Im-

proved Rose Wash Cures.

Secret Diseases.

In all their stages. At little expense,

little or no change. No inconvenience,

and no exposure.

It causes a frequent desire and gives strength

to urinate, thereby removing obstructions, pre-

venting and curing strictures of the urethra, al-

leviating pain and inflammation, so frequent in

the first stages of disease and expelling all "poisonous

discharges and worn-out matter."

Thousands upon thousands who have been the

Victims of Quacks, and who have paid "heavy

fees" to be cured in a short time, have found

that they were deceived, and that the "Poison" was

by the use of "powerful stimulants," been driven

up in the system, to break out in an aggravated

form and perhaps after marriage.

Use Helmhold's Extract Broom for all affec-

tions and diseases of the Urinary Organs

whether existing in Male or Female, from

whatever cause originating and no matter how

Long Standing.

Diseases of these Organs require the aid of a

Diuretic. Helmhold's Extract Broom is the

great Diuretic, and is certain to have the desired

effect in all Diseases for which it is recommended.

Evidence of the most reliable and responsible

character will accompany the medicine.

Poetry.

In Peace.

Come, let us make his pleasant grave
Upon this shady shore,
Where the sad river, wave on wave,
Shall grieve for evermore;
Oh! long and sweet shall be his dream,
Lulled by its soothing flow—
Sigh softly, softly, shining stream, because he
loved you so!

Fair blossom daughters of the May,
Your ranks must stand aside to-day
To give our darling room;
These dew-drops which you held in showers
Are loving tears, I know—
Bloom brightly, brightly, grateful flowers, be-
cause he loved you so!

Here, all along warm summer days
The yellow bees shall come,
Coquetting down the blossomy ways
With fond and ringing hum;
While, warbling in the sunny trees,
The birds fit to and fro—
Sing sweetly, sweetly, birds and bees, because
he loved you so.

Here, with their softened, cautious tread,
The light feet of the shower
Shall walk about his grassy bed,
And cool the sultry hour;
Yet may not wake to smiles again
The eyes which sleep below—
Fall lightly, lightly, pleasant rain, because he
loved you so!

And when the summer's voice is dumb
And lost her bloomy grace,
When sobbing autumn's tempests come
To weep above the place
Till all the forest boughs are thinned,
Their leafy folds laid low—
Grieve gently, gently, weeping wind, because he
loved you so!

And when, beneath the chilly light
That crowns the winter day,
The storm shall fold his grave in white,
And shut the world away;
Above his sweet, untrodden rest,
Fall soft, caressing snow—
Drift tenderly across his breast, because he
loved you so!

Miscellaneous.

What Young People Should

Know.

The best inheritance which parents
can give their children is the ability to
help and take care of themselves. This
is better than a hundred thousand dol-
lars apiece. In any trouble or difficulty,
they have two excellent servants in the
shape of two hands. Those who can do
nothing, and have to be waited on, are
helpless and easily disheartened in the
misfortunes of life. Those who are ac-
tive and hardy meet troubles with a cheer-
ful face and easily surmount them. Let
young people, therefore, learn to do as
many things as possible. Every boy
should know how, sooner or later—
1. To dress himself, black his own boots,
cut his brother's hair, wind a watch, sew
on a button, make a bed, and keep the
closet in order.

2. To harness a horse, grease a wagon,
and harness a team.

3. To carve and wait on table.

4. To milk the cows, shear the sheep,
and dress a real or mutton.

5. To reckon money and keep ac-
counts correctly, and according to good
bookkeeping rules.

6. To write a neat and appropriate,
briefly-expressed business letter, in a good
hand, fold and superscribe it properly,
and write contracts.

7. To plough, sow grain and grass,
drive a mowing machine, build a neat
stack and pitch hay.

8. To put up a package, build a fire,
mend broken tools, whitewash a wall and
regulate a clock.

Every girl should know how—
1. To sew and knit.

2. To mend clothes neatly.

3. To make beds.

4. To wash her own hair.

The Valley Herald

Chaska, Minnesota

Saturday July 22nd, 1865

The work of reconstruction and bringing back into the Union of the Southern States is progressing rapidly and South Carolina now has a provisional governor like all the rest except Florida. These governors are appointed by the President and are true Union men so that there is hope that the reorganization will be on a true Democratic basis.

Many are urging upon the President the propriety of allowing the negroes to vote, but he seems to be in no wise so disposed to do until they are able to use some judgment in the matter. It seems the height of absurdity to allow these men the great power which this would give them until they are at least able to know what they do. Many who were bitterly opposed to allowing foreigners to vote until after a residence, of several years, advocate the right of suffrage for the negro, but we fail to see any particular advantage of a negro over them except on the one point of slavery, which they are all right upon.

The rich Southerners feel aggrieved because those worth over \$20,000 are excluded from the amnesty proclamation and complain that nothing can be done by them because they have no security for their money while invested in business.

This provision may be too severe upon many, but doubtless is just upon a very large class of rebels, for it is well known that the rich and aristocratic, were the chief instigators of the war.

We notice that the decision of the President as to the place of imprisonment of the remaining Assassination Conspirators is changed and they are to be sent to the Dry Tortugas instead of Albany, which must, we think, be adding bitter to bitter.

The Minnesota regiments are rapidly coming home, and those who are watching and waiting and anxiously looking at every day's paper for news of those not yet discharged will soon have the satisfaction of knowing that their friends are on the road. We notice that Gen. Grant has ordered all men not absolutely needed to be discharged. The 8th arrived in St. Paul on Thursday, and received a hearty welcome. The 2nd Regiment Light Artillery, left Nashville Tenn. on the 15th and can not be far away.

The Atlantic Cable is doubtless at this time being spun out into the ocean, and we shall wait very anxiously for the news of its success—we cannot think of its failure. Few yet realize the great results of this enterprise if successful, giving us daily communication with the whole civilized earth. It must be remembered too that when survivors here in the west it will be some four hours later in England, so that in our morning papers we can read what has transpired there the same morning. This is wonderful indeed, and seems almost incredible but to science.

The Atlantic Cable.

New York, July 19.

A private letter from Mr. C. W. Field states that the Great Eastern would probably leave New York on the 11th and Valencia on the 15th of July. All representatives of the press of England, America and France are to be excluded from the Great Eastern during the laying of the cable—the telegraph construction company having charge of the undertaking believing this course necessary, as some of the members of the Press might enter into conversation with the engineers and thus distract their attention from their highly important duty.

A journal of the trip and its results will, however, be furnished the Associated Press immediately upon the arrival of the Great Eastern at Heart's Content, and connection being made with the shore at that terminus of the line. As the cable across the Gulf of St. Lawrence between Cape Breton and Newfoundland Island is now out of order for the first time in seven years, it is probable the message from and to the cable will be sent across the gulf by a steamer, which will delay the press reports from four to six hours.

Should there be enough of the Atlantic cable to stretch across the gulf—eighty miles—which is confidently expected it will, we understand it will be immediately laid, and thus in a few days not only restore the continuity of Newfoundland, but the two countries in uninterrupted communication.

FROM WASHINGTON.

The Conspirators sent to the Dry Tortugas—Disposition of the Rebels—Jeff Davis' Counsel—Affairs in North Carolina.

WASHINGTON, July 18.

[Special to N. Y. Post.]—The President has changed the place of imprisonment of Dr. Mudd, O'Laughlin, Arnold and Spangler, and they were to-day sent to the Dry Tortugas instead of the Albany Penitentiary.

Col. Hamilton, Davis' Private Secretary, has been sent to Fort McHenry, Prof. McCullough, the alleged projector of the incendiary fires in New York, to Fort Delaware, and Gov. Harris to Libby Prison.

The Cabinet was in session to-day. It is said the conspirators, Dr. Mudd, Spangler, Arnold and O'Laughlin, were yesterday sent to Albany Penitentiary, in accordance with their respective sentences.

R. Gillett, who is retained by some friends of Jeff Davis, as the latter's counsel, arrived here several days ago. He has had no interview with his client, nor does he know what course the Government intends to pursue relative to the trial.

Encouraging accounts have been received here of the prospects of restoration in North Carolina, and it is stated that a majority of her planters are pursuing a humane and judicious course towards the late slaves.

FROM TEXAS.

Mexican News—Three Thousand Rebels Gone to Mexico—Labor and Crops.

NEW YORK, July 15.

Matamoros advices of the 8th, from imperial sources, state that the Mexican Republicans under Negrete had been effectually scattered; that they had disbanded; and that the greater number of them had sought refuge in Texas. The indications of approaching trouble between our forces in Texas and the imperialists were increasing. It is reported that Cortinas, without mention of whose name no story from the Rio Grande border would be complete, had established his headquarters on the Texas side of the river, and that at the urgent solicitation of Maximilian's followers on the other side he had received notice from the American commander to leave. It is also said that Cortinas had recently captured two steamers on the Rio Grande, which playful freak of this lively genius has led to an interview between the American and Imperial commanders, of which the result was not known. Guerrillas still swarm around Matamoros, and rebels from our own Southern States continue to arrive in Mexico in large numbers.

The Herald's Galveston correspondent gives additional accounts of the exodus of rebels from Texas to Mexico. The rebel Gen. Shelby with 3,000 of his followers, accompanied by Ex-Govs. Moore and Allen of Louisiana, and other extinguished political luminaries of the late Confederacy, were on the way. They had transportation and supplies for six months, and all were armed with weapons which they had failed to surrender to the national government in accordance with the terms of Kirby Smith's capitulation. They professed though that they were merely going to Mexico as emigrants, and not to fight for either Republicans or Imperialists.

The Burning of Barnum's Museum.

New York, July 14.

The proprietor and employees of the Museum are thoroughly convinced the fire was the work of incendiaries. The fire was first discovered in the basement, and on immediately running to the roof to turn off the water from the large tank, the flames were discovered bursting out on the second floor, on the third, near the stage of the lecture room, and on the floor. Mr. Tiffany, who had gone to the roof to turn on the water, found his exit cut off, and was obliged to descend from the upper window by leaping to the balcony below. Returning to his

office, he took from his safe \$800,000 in government bonds, and left the building. The manager had lately received numerous letters containing threats of burning the building, on account, it is supposed, of the play of "Jeff in petticoats."

Among the works of art saved at the Museum yesterday, was the Greek Slave; also, twenty-four gigantic pictures, illustrating Washington's battles, painted by John McNevin, which were soon to be exhibited as a panorama. Fortunately they had not been taken into the Museum building, but were stored elsewhere. The ginnet Anna Swan, had a narrow escape. She was found at the head of the stairs in a swooning condition from the smoke, and was with difficulty assisted out of the building. She lost everything except the clothes she wore, and in her trunk was \$120 in gold, besides some greenbacks and all her clothing. The wax figure of Jeff Davis was carried out, but just as the street was reached, the head dropped off.

It was afterwards found suspended to a lamp-post. A soldier was forced to jump from the third story window. He said he had in his company James Barnes, of Lancaster county, Pennsylvania, a member of the New York 69th regiment, and it is feared he perished. The monster bear was lowered from an upper window on a ladder by a chain attached to his neck. He was very docile. The learned Seal was also got out though he fought against the rough treatment he received. The tanks holding the whales and alligators were broken to let the water flood the building, leaving their occupants to roast rather than boil. Barnum, who was at Bridgeport, telegraphed to his agent ready to sail for Europe on Saturday, to secure jurisdictions for a new museum.

A Washington correspondent says the War Department has notified Ford that he would not be allowed to use the theatre for theatrical purposes. Nothing was said about the purchase of the theatre by the government. The actors charge it as a dodge of the Christian Association to depreciate the value of the property, and force Ford to sell it at a loss. Ford's Baltimore company have already given \$1,700 to the Lincoln Monument Fund.

Judge Asa Packer, of Mauch Chunk, Pennsylvania, has donated \$500,000 for the establishment and maintenance of a college at Bethlehem in that State. A tract of fifty-seven acres is also given as a site for the buildings. Judge Packer has gone to Europe for his health.

U.S. 7-30 LOAN THIRD SERIES \$250,000,000

By authority of the Secretary of the Treasury, the undersigned, the General Subscription Agent for the United States Securities, offers to the public the third series of Treasury Notes, bearing seven and three-tenths percent. interest per annum, known as the

SEVEN-THIRTY LOAN.

These Notes are issued under date of July 15, 1865, and are payable three years from that date in currency or are convertible, at the option of the holder into

U.S. 5-20 Six per cent. GOLD-BEARING BONDS

These bonds are worth a premium which increases the actual profit on the 7-30 loan, and besides this its exemption from State and municipal taxation, which adds from one to three percent. more, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a \$50 note.
Ten cents " " " \$500 "
Ten " " " \$500 "
20 " " " \$1000 "
\$1 " " " \$3000 "

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions. The Notes of this Third Series are precisely similar in form and privilege to the Seven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent. instead of 7-30ths in currency. Subscribers will deduct the interest in currency up to July 15th, at the time when their subscription is made.

The delivery of the notes of this third series of the Seven-Thirties will commence on the 1st of June, and will be made promptly and continuously after that date.

The slight change made in the conditions of this THIRD SERIES affects only the matter of interest. The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in currency. This is

THE ONLY LOAN IN MARKET

now offered by the Government, and it is the GREAT POPULAR LOAN OF THE PEOPLE.

Less than \$250,000,000 of the loan authorized by the last Congress are now on the market. This amount, at the rate at which it is being absorbed, will all be subscribed for within two months when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscription to other loans. It now seems probable that no considerable amount beyond the present series, will be offered to the public.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers, throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, who will be responsible for the delivery of the notes for which they receive orders.

JAY COOKE

Subscription Agent, Philadelphia, May 15th 1865.

Subscriptions will be received by the 1st National Bank of St. Paul 2d National Bank of St. Paul.

STATE OF MINNESOTA, COUNTY OF CARVER } S. S. IN PROBATE COURT.

In the matter of the estate of Ernst Hyde, deceased. At a special term of the Probate Court held at Chaska on the 22d day of June A. D. 1865, on reading and filing the petition of Louisa Hyde (the late widow of Joseph Hyde, deceased) and Francis Hassenstam, claiming that by virtue of contracts made with Ernst Hyde, deceased, they are entitled to conveyances of certain property situated in said county, it is further ordered, that on Monday the 7th day of August A. D. 1865 at 10 o'clock in the forenoon of said day, be fixed as the time for the hearing of said petition and that all persons interested in said estate are requested to appear at the session of the Probate Court then and there to be held to show cause, if any there be why the prayer of said petitioners should not be granted, and it is further ordered that a copy of this order be published in the "Valley Herald" a weekly newspaper printed and published at Chaska in said county for six successive weeks previous to said day of hearing. Saturday Morning July 23rd

The Crops.

The farmers in this region, and we think mostly throughout the State are looking for heavy crops this fall. The rains have made wheat the best for several years, and in many places it is so stout as to lodge down badly. Corn also is looking very fine. Many have already commenced haying, and the rye is harvested. This is a busy season and many a stout heart has doubtless been dreading its coming, but the reward is, barns running over with plenty, and happy, comfortable homes, which are almost sure, sooner or later to be the reward of honest toil.

We have often thought of the hardships and privations of the first settler who ventures health and often the life of himself and family in the noble effort to make a pleasant home, and always felt that such homes were well earned, but there are good things in store for the persevering farmers of this rich Minnesota Valley in the glorious future which awaits it.

Bloating.

The river has fallen very rapidly since the close of our rainy term, and is now full three feet lower than ten days ago, and very near the lowest point of this summer. But very little freight is sent from above the Rapids, and no boat runs below but the Mollie, which leaves here every morning about five o'clock and returns late at night.

To Our Readers.—We have received a call from Mr. B. F. Jenius, Principal of the Minneapolis Academy, who is spending his vacation as Agent for the "Life of Abraham Lincoln" by H. J. Raymond, Editor of the New York Times, and would suggest to our friends that they examine the book carefully since it is by an author upon whom perfect reliance can be placed, and who would never enter upon the undertaking with the simple object of making money, which is often the main object in such cases.

Mr. Raymond as editor and politician has had every advantage to obtain the necessary data, and being an ardent admirer of Mr. Lincoln from the first, has not failed to preserve every thing of interest concerning him and has also been furnished with valuable information by Mr. B. F. Carpenter, painter of "The Emancipation Proclamation" who spent some time in the family and intimate acquaintance of our lamented President. We can think of no one better able as to ability and resources to write a truthful and just life of this great man.

—Godey's Lady's Book for August is just received and is, as usual, replete with that which is its particular forte. The engraving is "The Fair Haymaker," and represents a little child asleep in the field while his mother is in the act of shielding it from the hot sun. There are some pretty fashions in this number and the reading matter is usually good.

State News.

GOODHUE COUNTY.

From the Red Wing Republican.

Wheat Trade.—The wheat trade of this city is by no means an insignificant item. The following is the account of wheat bought by four of the principal houses, on the 12th and 13th, two of them buying so little as to make it practically the account of but two:

July 12th, H. C. Hoffman & Co.,	2,911
" " S. Stevens,	2,354
" " J. Warner,	1,728
Total	6,993

The average price paid was 82 1/4 cents per bushel.

July 13th, H. C. Hoffman & Co.,	2,468
" " S. Stevens,	2,288
" " J. Warner,	700
" " W. W. Phelps,	700
Total	6,156

The average price paid was 83 3/4 cents per bushel. These are by no means the best wheat days we have had in Red Wing, for we have frequently taken in as much in a day as both combined; but we think it is a very good showing when there is nothing by way of high price to encourage it along.

HENNEPIN COUNTY.

BOOMS AND LOGS.—During the past week our lumbermen have manifested much uneasiness in regard to the safety of their immense stock of logs confined in the St. Anthony and Minneapolis booms. The rapid rise of the river, together with the insecure condition of the booms, made up a sum of perplexities anything but agreeable. Fortunately the expected freshet only culminated in a rise of three feet, and since last Friday evening this has receded over eighteen inches. Every measure that could be brought to bear to insure safety was speedily adopted. Over five thousand feet of strong cable rope was employed. Notwithstanding all this, the boom logs of the St. Anthony boom parted, and a few logs passed over, but were caught in the lower or Minneapolis boom. By considerable effort, "stringers" were thrown out from shore to shore, immediately above the Upper Bridge, which caused a "gorge," rendering the logs comparatively safe for the present. The number of logs in the different booms foot up as follows:

Minneapolis Boom.....	4,070,000 feet
St. Anthony ".....	8,000,000 "
Coon Creek ".....	10,000,000 "
Total.....	24,000,000 "

This is exclusive of the immense stocks at anchor in Rum River and on the way from the Upper Mississippi, which can be made available at any time.—Atlas.

The Taylor's Falls Reporter says the big jam of logs crowded into one of the most wild and romantic dales of the Northwest, now a thing of the past, will long be impressed upon the minds of all who were fortunate enough to witness it. It is estimated that about 100,000,000 feet of logs have gone over the dam at this place this season, and that there are now only about 10,000,000 feet remaining on the tributaries of the St. Croix above here.

The Rochester Republican gives the following abstract of business done at the Rochester station, Winona and St. Peter Railroad, during the week ending Thursday, 13th: Wheat taken in at the elevator, 28,676 bushels; freight received at the depot, 540,000 lbs. or 270 tons; charges on freight, \$4,200; ticket sales, \$450. The Republican says the springs, rivulets and rivers in Southern Minnesota are higher than they have been for the past two or four years. Plenty of water for the people and for stock, and the mills are doing a fine business.

U. S. 7-30 LOAN
THIRD SERIES
\$280,000,000.00

By authority of the Secretary of the Treasury,
the undersigned, the General Subscription Agent
for the sale of United States Securities, offers to
the public the third series of Treasury Notes,
bearing seven and three-tenths per cent. interest
per annum, known as the

SEVEN THIRTY
LOAN.
These Notes are issued under date of July
15, 1865, and are payable three years from that
date in currency or are convertible, at the option
of the holder into

U. S. 5-20 SIX PER CENT.
GOLD-BEARING BONDS
These bonds are worth a premium which
increases the actual profit on the 7-30 loan,
and besides this its exemption from State and
municipal taxation, which adds from one to three
per cent. more, according to the rate levied on
other property. The interest is payable semi-
annually by coupons attached to each note, which
may be cut off and sold to any bank or banker.

The interest amounts to
One cent per day on a \$50 note.
Two cents " " " \$100 "
Ten " " " \$500 "
20 " " " \$1000 "
\$1 " " " \$5000 "

Notes of all the denominations named will be
promptly furnished upon receipt of subscriptions.
The Notes of this Third Series are precisely
similar in form and privileges to the Seven-Thir-
ties already sold, except that the Government
reserves to itself the option of paying interest in
gold coin at 6 per cent. instead of 7-30ths in
currency. Subscribers will deduct the interest
in currency up to July 15th, at the time when
they subscribe.

The delivery of the notes of this third series
of the Seven-Thirties will commence on the 1st of
June, and will be made promptly and continu-
ously after that date.

The slight change made in the conditions of
this THIRD SERIES affects only the matter of
interest. The payment in gold, if made, will be
equivalent to the currency interest of the higher
rate.

The return to specie payments, in the event of
which only will the option to pay interest in Gold
be availed of, would so reduce and equalize pri-
ces that purchases made with six per cent in
gold would be fully equal to those made with
seven and three-tenths per cent. in currency.
This is.

THE ONLY LOAN IN
MARKET
now offered by the Government, and it is the
GREAT POPULAR LOAN OF THE
PEOPLE.

Less than \$280,000,000 of the Loan authorized
by the last Congress are now on the market.
This amount, at the rate at which it is being ab-
sorbed, will all be subscribed for within two
months when the notes will undoubtedly com-
mand a premium, as has uniformly been the case
on closing the subscriptions to other Loans. It
now seems probable that no considerable amount
beyond the present series, will be offered to
the public.

In order that citizens of every town and section
of the country may be afforded facilities for tak-
ing the loan, the National Banks, State Banks,
and Private Banks, throughout the country
have generally agreed to receive subscriptions at
par. Subscribers will select their own agents,
in whom they have confidence, and who only are
to be responsible for the delivery of the notes for
which they receive orders.

JAY COOKE.
Subscriptions Agent, Philadelphia.
May 15th 1865.

Subscriptions will be received by the
1st National Bank of St. Paul
2d National Bank of St. Paul.

Thursday Morning July 29th

MARRIED.

On Tuesday the 25th inst. at the residence of the bride's father, by Rev. Peter Carlson, Andrew Larson of Afton, Minn. and Clara Johnson of Dahlgren.

THE MORAVIAN CHURCHES in Chaska and vicinity will remain closed until August 13th, 1865, when the new pastor, Rev. C. L. Reinke, will enter upon his duties.

REV. CHARLES B. SHULTZ.
Acting Pastor.

The Moravian Academy

The first annual term of the Moravian Academy at Chaska, closed July 27th, 1865. An exhibition was in preparation but as domestic and business affairs have compelled the undersigned to leave for the East, it will be omitted.

The Academy has enjoyed great prosperity, averaging 100 scholars, in three departments, under the charge respectively of the subscriber, and of Mr. H. Carlisle and Mrs. E. S. N. Lee.

The 2nd Annual Term will begin on Monday, September 4th, 1865.

A higher grade will be formed, in some branches, which will be duly announced. Applications and inquiries must be addressed to the Rev. Clement L. Reinke, the new Principal, who will arrive in Chaska within the next fortnight; or in the mean time to Mr. H. C. Carlisle.

The present patrons are particularly urged to apply at once as the number that can be accommodated is necessarily limited.

REV. CHARLES B. SHULTZ.
Acting Principal.

NOTICE.

Know ye all, both great and small, that about the first of May, I qualified as Pound Master of Chaska; that by virtue of such a position, I must without qualification, request the owners of horses, cattle, sheep and dogs, if they have any respect for the laws, after eight o'clock at night, to keep the same snug up tight, if not it should be known all round, that the same may get into the Pound. For if they are doing damage, to corn, beans or cabbage, between 8 o'clock at night and 4 in the morning, fair weather or storming, to the Pound they must go without any warning; and there they must stay with very little pay until the damages you pay. Now you all will save trouble and a mighty sight of grumble, if you all, both great and small, take my advice and be bright, by keeping them up every night. This notice I give without any pay, that hereafter I can say, that I have done my duty without booty. I sign this notice in my official capacity, and hope you will not doubt my veracity, whom I tell you without hesitation that I am Pound Master of this part of creation.

JOHN HEUMPEL.

A New Paper.

The second number of which we have just received has been started at St. Peters. It is called the St. Peter Advertiser, is printed from new type and has a very neat appearance, is well arranged and bids fair to take a first place among our local papers. Its politics is "strictly democratic."

The Second Battery.

From an officer who passed through the city yesterday morning, on his way to Monticello, we learn that the Second Battery, Capt. Hotchkiss, was at Saint Louis about five days ago, and were to start for Fort Snelling on a St. Louis packet. They had a 30-pound Parrott gun with them, which they were bringing home as a trophy, and were obliged to come by water consequently. Two St. Louis boats, the Muscatine and the Burlington, are due to-day, and the Second Battery may be on one of these. The Battery only numbers about 120 members, so that it will not require long time for preparation to receive them.—Pioneer

PAID OFF.—The first regiment have all been paid off but two companies, and returned to their homes. These will be paid as soon as their papers can be arranged.

The eighth regiment will be paid off next Tuesday, August 1st. All members of the regiment are expected to be on hand that day.

We noticed Col. Averill's office crowd-

ed yesterday with soldiers of various organization, all anxious to get their pay.—Press 28th.

The Third Illinois Cavalry.

Has been for some days encamped about ten miles northwest of Fort Ridgely awaiting the arrival of ammunition before continuing their march to Devil's Lake. They probably moved forward yesterday. Col. Carnahan has sent to Gen. Sibley's headquarters, two skulls found near his camp. The skeletons were complete when found, and were evidently the remains of trappers, as traps were found with them. A knife with the initials J. C. L. and a broken pistol were also found and forwarded with the skulls. One of the men must have been very large as his thigh bone measured one and a half inches longer than any man's in Col. Carnahan's regiment, notwithstanding he has men six feet three inches high. It is quite probable that these are the remains of some trappers who were frozen to death last winter.—Press of 25th.

ANOTHER MURDER.

A Man Shot to Death by a Maniac.

Secretary Rhodes, of the La Crosse Packet Company, received the following telegram yesterday afternoon from Capt. Moulton of the Annie Johnston:

WAPASHAW, July 27.

A man by the name of Nathan S. Roberts was shot by a maniac on board the steamer Annie Johnston near this place, and died in thirty minutes after. He was shot by a man named G. C. Stocking, of Henderson, Sibley county, Minn. I am going to bring the body of the murdered man and the maniac to St. Paul.

J. H. MOULTON, Capt.

There being no secure place at Wapashaw to confine the maniac, it was deemed best to bring him to this city and not hold an inquest in that county. The Annie Johnston will arrive this morning.—Press 28th.

The Coal Discovery.

In confirmation of what was said last week about the discovery of stone coal in Minnesota Valley, near Redwood Falls, Mr. H. J. White, a mechanic employed in Pratt's mills, at St. Peter, made the following statement yesterday: "I have just come down from Redwood Falls, but before coming, I went to see the place, where, it is said stone coal exists. I saw and examined the places of discovery, and state, that it crops out of the ravine full three feet thick, but such as could be seen had been so exposed as to become effected by frost and dampness. Coal exists here in immense quantities, and when the exposed coating is removed, a superior coal will be found. I saw it used for forging purposes in the blacksmith shops at Redwood Falls, and it worked admirably."—St. Peter Advertiser.

The Red Wing Republican says last Tuesday three hundred teams, loaded with wheat, came into that city. Not less than 9,000 bushels of wheat, at about 8 cents, were sold.

"The railroad between the cities of Washington and Richmond is now fully opened. The bridge over the river Rappahannock was finished on Monday. Two trains will be run daily between the two cities, beginning on Monday next."

provements, French, Grand Action, Harp Pedal, Iron Frame, Over-String Bass &c.,
each instrument being made under the personal supervision of Mr. J. H. Grovesten
who has had a practical experience of over 20 years in their manufacture, is fully
warranted in every particular.

The "Grovesten Piano Fortes" received the highest
award of merit over all others at the celebrated World's Fair.
Where were exhibited instruments from the best makers of London, Paris, Germany,
Philadelphia, Baltimore, Boston, and New York; and also at the American Institute
for five successive years, the gold and silver medals from both of which can be seen
in our ware-room.

By the introduction of improvements we make a still more perfect Piano Forte,
and by manufacturing largely, with a strictly cash system, are enabled to offer these
instruments at a price which will preclude all competition.

H. YOUNG'S

CELEBRATED
Stomach Bitters.

A pure and powerful tonic, corrective
and alterative of wonderful effi-
cacy in disease of the Stomach,
Liver and bowels. Cures Dyspepsia, Liver
complaints, Headaches, General Debility,
Nervousness, Depression of Spirits, con-
stipation, Colic, Intermittent Fevers,
Cramps and Spasms and all
Complaints of either Sex

arising from bodily weakness whether inherent
in the system or produced by special causes.
Nothing that so wholesome and restora-
tive in its nature enters into the composition
of Hostetter's Stomach Bitters. This popular
preparation contains no mineral of any kind, no
deedly botanical element, no fiery excitement,
it is a combination of the extracts of medicinal
herbs and plants with the purest and mild-
est of all diffusive stimulants.

It is well known to be a powerful and irre-
sistible as a remedy in cases of Dyspepsia,
and in less confirmed forms of Indigestion.
Acting as a gentle and powerful aperient,
as well as upon the liver, it also invariably relieves
Constipation and all the evils attending it.
Persons of feeble habit, liable to Nervous Ac-
tivity, Losses of Sleep and Fits of Langor,
find prompt and permanent relief from the Bitters.
The testimony on this point is most con-
clusive, and now both sexes.

The agency of Billions of Colic is immediately
assuaged by a single dose of the stimulant, and
by occasionally resorting to it, the return of the
complaint may be prevented.

As a General Tonic, HOSTETTER'S BITTERS
provides effects which must be experienced or
witnessed before they can be fully appreciated.
In cases of Constitutional Weakness, Prostra-
tion, Debility and all the evils attending
from Old Age, it exercises the electric influence.
In the convalescent stages of all diseases it op-
erates as a delightful invigorant. When the power
of nature is relaxed, it operates to re-entire and
re-establish them.

Hostetter's Bitters.
Last, but not least, it is
The Only Safe Stimulant.

being manufactured from pure and non-toxic
materials, and entirely free from the acrid ele-
ments present more or less in all the ordinary
tonics and stimulants of the day.

No family medicine has been so universally
and so truly valued, deservedly popular
with the intelligent portion of the commu-
nity, as "Hostetter's Bitters."
